## Interim Management Report of Fund Performance

For the Period Ended June 30, 2025

This Interim Management Report of Fund Performance contains financial highlights but does not contain either interim or annual financial statements of the investment fund. You may obtain a copy of the interim or annual financial statements at no cost, by calling 1-844-395-0747, by writing us at Suite 600, 517 – 10th Avenue SW, Calgary, Alberta T2R 0A8, or by visiting our website at [www.mawer.com](http://www.mawer.com) or SEDAR+ at [www.sedarplus.com](http://www.sedarplus.com).

Unitholders may also contact us using one of the above noted methods to request a copy of the investment fund's proxy voting policies and procedures, annual financial reports, proxy voting disclosure record, or quarterly portfolio disclosure.

This Interim Management Report of Fund Performance includes certain statements that are "forward looking information" or "forward looking statements" (collectively, "forward looking information") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, included in this report that address activities, events or developments that the portfolio advisor, Mawer Investment Management Ltd., expects or anticipates will or may occur in the future, including such things as anticipated financial performance, beliefs, plans, goals, objectives, assumptions, information and statements about possible future events, conditions, results of operations, are forward looking information. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", "will" and similar expressions are intended to identify forward looking information. Undue reliance should not be placed on forward looking information. Forward looking information is subject to various risks described in the Simplified Prospectus, uncertainties, and assumptions about the Fund, capital markets and economic factors, which could cause actual results to vary and in some instances to differ materially from those anticipated by the portfolio advisor and expressed in this report. Material risk factors include, but are not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. The foregoing list of risk factors is not exhaustive.

All opinions contained in forward looking information are subject to change without notice and are provided in good faith and are based on the estimates and opinions of the portfolio advisor at the time the information is presented. The portfolio advisor has no specific intention of updating any forward looking information whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but cannot be guaranteed to be current, accurate or complete and is subject to change without notice.

## Management Discussion of Fund Performance

### Investment Objectives and Strategies

The Mawer Canadian Money Market Fund (the "Fund") earns interest by investing primarily in government of Canada treasury bills. The Fund invests in securities maturing in 365 days or less. The Fund will have a dollar-weighted average term to maturity of no more than 180 days, and no more than 90 days when calculated on the basis that the term of a floating rate obligation is the period remaining to the date of the next rate setting. The proportion invested in each type of security will vary with market conditions. The Fund maintains a high credit quality, with a minimum rating of R-1 (low).

### Risk

The risk level of the Fund did not change during the year. The risks of investing in the Fund remain as discussed in the Prospectus. The Fund is best suited to investors with a low risk tolerance and who are seeking a regular income flow.

The key risk is the credit quality of the issuers of the securities purchased by the Fund. Risk is controlled through credit quality parameters and diversification. This risk is greatly mitigated by the very short-term nature of these securities.

### Results of Operations

The Fund's net assets decreased 9.4% to \$600.3 million from \$662.6 million at June 30, 2025. Of this change, \$8.6 million is attributable to positive investment performance and -\$70.9 million was due to net redemptions from the Fund.

The Manager assesses the Fund's underlying securities for liquidity on a quarterly basis. During the period the Fund has remained in compliance with National Instrument 81-102 and has maintained an illiquid concentration of less than 10% of the Fund's Net Asset Value. During the period there were no notable redemptions to the Fund that affected its liquidity.

### Performance Overview

Over the past six months, the Fund's Series A Units returned 1.2% (after fees and expenses), compared to the FTSE Canada 91 Day T-Bill Index return of 1.5%. All performance values are in Canadian dollar terms.

### Market Outlook

The first half of 2025 was marked by significant shifts in global economic momentum. Escalating tariff threats and intensifying trade tensions culminated in early April, when the Trump Administration implemented aggressive trade measures, disrupting the foundations of the global economic order.

In response to evolving economic conditions, the Bank of Canada (BoC) lowered its policy rate twice early in the year, ultimately pausing at 2.75%. This decision reflected persistent inflation, uncertainty surrounding ongoing trade negotiations, and stronger-than-expected first quarter GDP growth.

---

## Mawer Canadian Money Market Fund

Inflation remained elevated in the second quarter, with headline figures exceeding the BoC's forecasts and core inflation staying above target.

### Recent Developments

Effective December 31, 2024, Mr. Robert Kennedy retired from the Independent Review Committee (the "IRC"). Mr. Jerry Patava replaced Mr. Robert Kennedy on January 1, 2025.

### Related Party Transactions – Management Fees

The Portfolio Advisor receives management fees of 0.40% per annum for Series A Units of the Fund. The management fee is calculated daily at the rate of 1/365 (or 1/366 in a leap year) as the percentage of aggregate net asset value of the Series A Units of the Fund as of the last Valuation Date. The fee accrues daily and is paid monthly in arrears. Management fees for Series O Units are payable directly to the Manager by Series O investors and not by the Fund.

The Manager of the Fund has the ability, at their discretion, to reduce the management fees for large investors. This reduction is effected by means of a management fee distribution and will be automatically reinvested in additional units of the Fund at the net asset value of the Fund on the date of distribution. Mawer also receives fees for performing administrative services. As at June 30, 2025 the Fund owes Mawer \$0 related to these administrative services.

### Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six-month period ended June 30, and for each of the past five years ended December 31 as applicable. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements which are prepared in accordance with IFRS.

## Past Performance

Sales commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the Prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any investor that would have reduced returns. Mutual funds are not guaranteed. Their value changes frequently and past performance may not be repeated.

The Fund's performance numbers assume that all distributions are reinvested in additional units of the Fund. If you hold this Fund outside of a registered plan, income and capital gains distributions that are paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional units. The amount of the reinvested taxable distributions is added to the adjusted cost base of the units that you own. This would decrease your capital gains or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

The past performance of the Fund is set out in the following charts.

### Year-by-Year Returns

The bar charts below show the Fund's annual performance in each of the past 10 years, if applicable, to December 31. The charts show in percentage terms how an investment made on January 1 would have increased or decreased by December 31 of the fiscal year.
